

Advisory # [2024-A-001]

**Subject: Tub Holder Distribution for the T1 Inbound Baggage Claims Hall**

**From:** Baggage Services

**Contacts:** Mike Madeley [mike.madeley@qtaa.com](mailto:mike.madeley@qtaa.com) / 647-382-1769

**Effective Date:** January 19, 2024

In an effort to improve operational efficiency and safety within the baggage claim halls and to remain aligned with the most recent version of the Ground Operations Manual (GOM), we will be trialing new baggage tub holders within the T1 Domestic and International inbound baggage claim halls. Tubs must be placed in the new tub holders in order to mitigate impact of tub placement on top of and around the carousels. If the tub holders are full, contact the AOC 416 776 3055 to dispatch a Baggage System Operator for tub collection. Pending the outcome of this trial, additional tub holders will be deployed in both Terminals.

We appreciate your cooperation and collaboration in our efforts to improve the inbound baggage claim halls and inbound baggage process.

The following map identifies the locations of the tub holders in the T1 inbound Domestic and International claim halls.

Thank you,

Baggage Services
