

Advisory # **2024-A-009**

**Subject: Terminal 3 B7F Closure for Roof Replacement**

**From:** Airport Operations

**Contact:** Nick Matveev, [nick.matveev@gtaa.com](mailto:nick.matveev@gtaa.com), 416-802-9387

**Date:** 2024-03-13

To facilitate the Terminal 3 Roof Replacement project, aircraft stands B7F and B8A (not B8) will be unavailable from **March 25<sup>th</sup> at 0700L until July 31st, 2024, at 1900L**. During this period, scaffolding will be erected in the GSE area of B8, obstructing the Visual Guidance and Docking System (VDGS) and rendering it inactive.

Delivery vehicles operated by the contractor will be entering and exiting the laydown area at B7F, employing traffic spotters and escorts to ensure safe passage and coordination with ongoing operations. Please consult the images provided for the delineation of the project site limits.
