Effective February 23 at 0700L until March 6 at 1700L, the Critical Restricted Area (CRA) has been temporarily extended to include a portion of the apron adjacent to Terminal 3, previously designated as Air Canada space (formerly known as Hangar 8) (Figures 1 and 2).

This temporary extension is in place to facilitate upcoming survey work and the establishment of a contractor laydown area. The extended area remains designated as Critical Area at all times, regardless of whether work is actively taking place.

Current ULD parking is permitted. GSE Operations are not impacted and may continue in accordance with existing procedures.

Please refer to the map below for the exact location and limits of the CRA extension.
