The GTAA Airport Development and Construction department capital program continues to improve the reliability of People Moving Devices (PMDs) throughout Toronto Pearson International Airport.

The next set of elevators to be upgraded are Terminal 3 elevators G19 and G18. Elevator G19 provides service from the Arrivals Transfer Level PIER B to the CBSA PIL while Elevator G18 provides service from the departures level to the Arrivals Transfer level public side. These elevators will be removed from service on **October 15, 2019** with an expected return to service date of January 2020. During this period international arriving passengers who require the elevator will be directed to elevator H22, which are located at Arrivals Transfer level PIER C side (please see drawing below), in order to access the CBSA PIL. Employees who use elevator G18 will be directed to elevators H23 and H24.

If have any questions, please do not hesitate to contact Hossana Ashagrie at 416-776-3487.
