

Advisory # 2018-A-013

**Subject:** Temporary Closure Head of Stand Road by T3 C37

**From:** Airport Development and Technical Services

**Contact:** Milton Argotti, E: Milton.Argotti@GTAA.com, PH: 416-776-3727

**Date:** 2018-April-24

Effective 12:00 am April 25, 2018 until further notice, a section of Head of Stand Road by Gate C37 will be closed to traffic between Hammerhead C cross terminal tunnel and L21 baggage lateral exit door.

Traffic Barriers will be situated at both ends of the closure with alternate routing at Tail of Stand Road. Drivers are to exercise caution when approaching the closed section of roadway, follow directions from flagging personnel and/or other construction traffic signs. Failure to obey flagging personnel and construction traffic signs could result in serious injury.

Roadway closure is necessary in order for construction of a new structure that will be equipped with a baggage system and used as a typical baggage lateral. Upon completion of the structure, traffic will be restricted to authorized baggage operations vehicles only with unidirectional traffic flow from C36 toward C38. The anticipated construction completion date is July 16, 2018.

# T3 LC22 Shelter – Traffic Plan
