

Advisory # 2018-A-020

Subject: Head of Stand Road One way Traffic Gates H1 to H6

From: Aviation Services

Contact: Lars Olsson, lars.olsson@gtaa.com, 416-776-3095

Date: May18, 2018

In support of the Gate 193 Apron expansion project, the Primary Security Line (PSL) fence behind Gate 193 will shift to the east and occupy 1 lane of the newly painted head-of-stand road. As a result, the head-of-stand road from Gate H1 to H6 will be designated as one-way only. Traffic will flow from Gate H1 towards H6. Once works behind the PSL have been completed, the fence will be removed and traffic will once again flow bi-directionally. Work is anticipated to be completed in early July 2018.
