**Date:** 2018-05-25

Effective June 1, 2018, we will be required to operate a daily scheduled Domestic Hardstand Departure from the Terminal 1 Domestic Node E Bus Bay - Bus Bay 18 – between the hours of 0630 – 0830.

In order to support this operation, new seating and a double gate ticket lift have been added and the bus bay will be identified as Gate D30. Wayfinding and Signage will be amended though out the terminal to identify this new gate.

As a result of the scheduled hardstand operation, the International to Domestic (ITD) connections drop off point will be relocated to Bus Bay 17 and/or 16 from 0630 – 0830 daily to accommodate this departure. Please see the figure below outlining the passenger flow.
