Change #1 -The drive thru tunnel on Pier C running from C36 to C30 along the base of the hammer head will be closed to vehicle traffic as half the space of said tunnel will now be utilized as part of the early bag storage footprint. A section at both ends of the tunnel will remain available for foot traffic and access to various stakeholder's areas in the corridors off the tunnel. This change will take effect on **June 5, 2018.**

Change #2 – The connecting vehicle corridor running from gate C41 Tail of Stand road to Head of Stand road will be changed from its current configuration as a two lane, two way corridor to a one way, one lane corridor as depicted in the diagram below. This change will take affect on **June 15, 2018.**
