Date: 2018-July-13

It is anticipated that on July 14th, 2018, Gate 193 East apron stands will be available for Code C aircraft parking with a maximum wingspan of 36m. Five new stands, numbered 247, 249, 251, 253 and 255, will be available and accessed from new apron Lane 12. Apron lane 11 will not be painted or active at this time.

The painted centerline of apron lane 12, including the radii connection to Taxiway DT has now been painted **YELLOW**.

Operational use of, and access to and from these stands will be as follows until further notice:

- All aircraft movements shall be tow on, tow off. No live operations permitted.
- Ground servicing, including fueling, is not permitted at the stands
- Only GPU and/or PCA will be permitted and shall be positioned west of the stop bar (towards adjacent fence line) as equipment restraint lines will not be painted.
- No other GSE parking allowed.
- Vehicle access to and from the apron and stands shall be from the vehicle corridor east and north of the blast deflector fence.
- Centreline lighting will not be in service at this time.
- Temporary apron floodlighting will be provided for all stands.

The layout of the new stands, lane 12 and vehicle corridor are detailed on Figure 1 attached drawing.
