

Advisory # **2018-A-038**

Subject: Curbside Smoking in Non-Designated Smoking Areas

From: Customer and Terminal Services

Contact: Altino Bairos, altino.bairos@gtaa.com

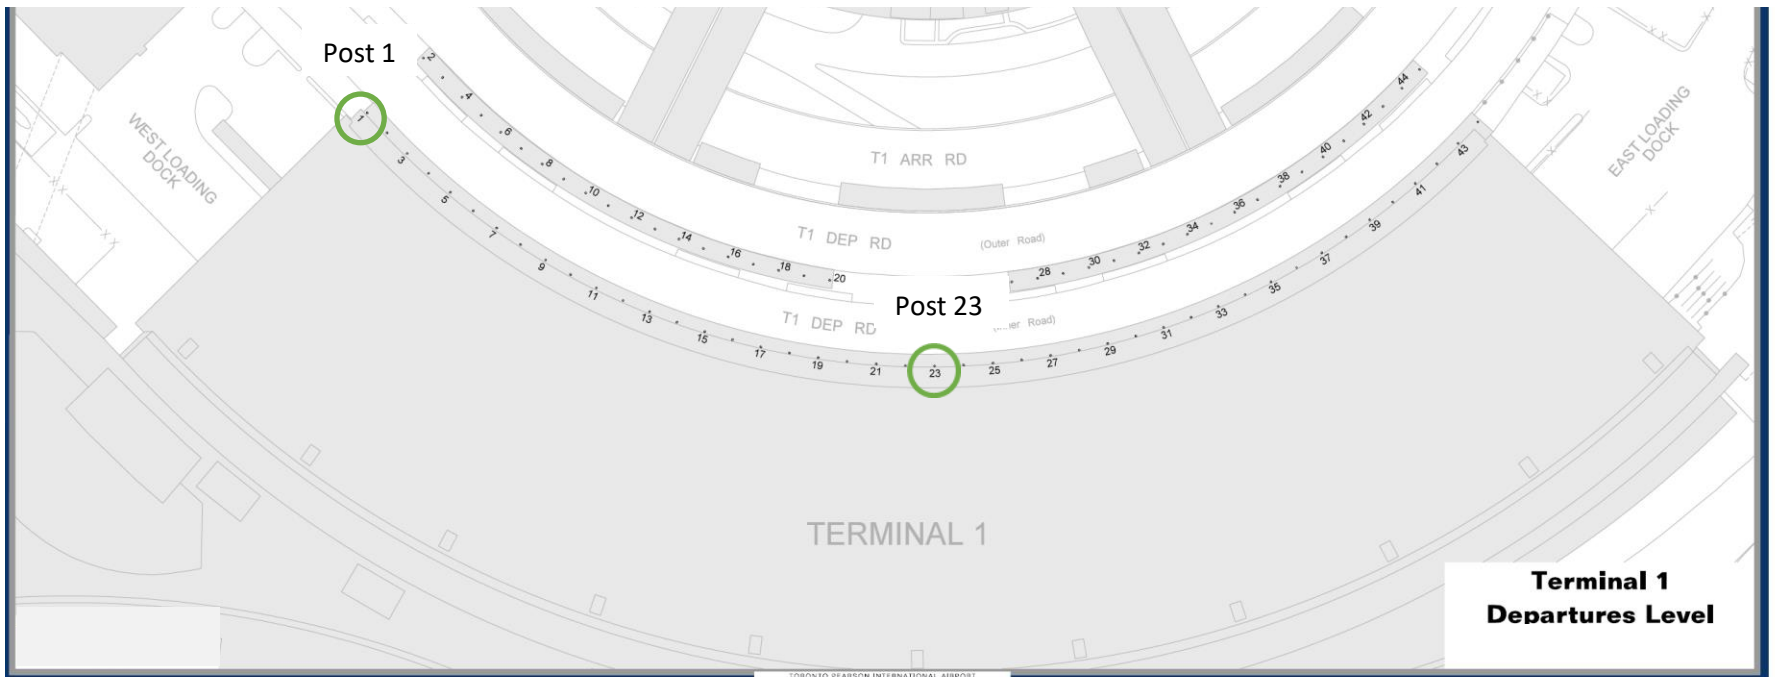

Date: 2018-07-19

There has been an increase in complaints that have been received from passengers and employees regarding smoking activity taking place on the curbs at Terminal 1 and Terminal 3 outside the designated smoking areas. This is leading to a poor experience for our passengers and our employees.

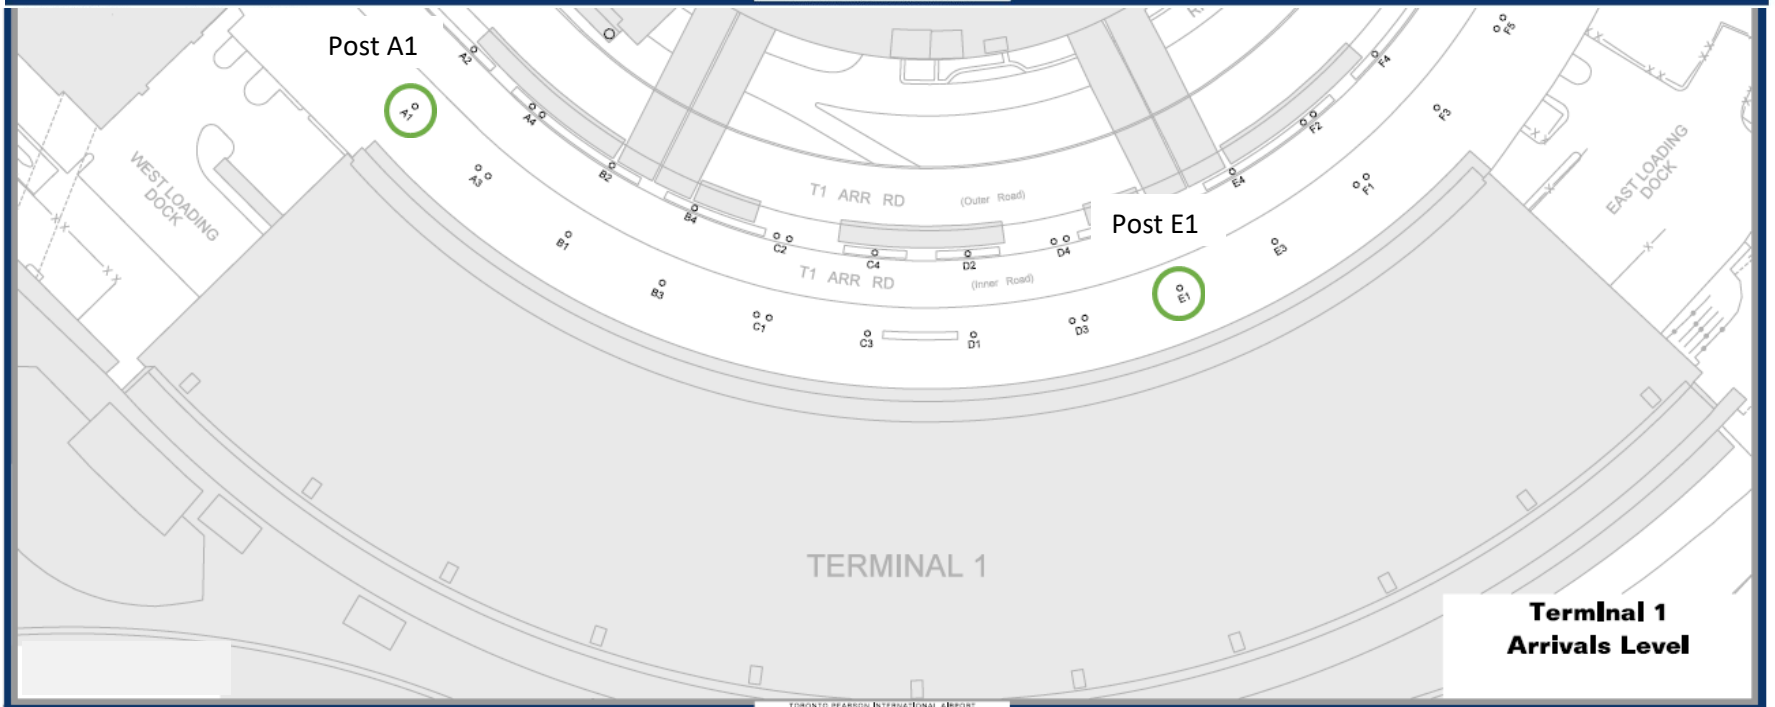

Enhanced signage has been installed to help passengers and employees find designated smoking locations. These locations feature green pavement markings and a designated smoking location sign.

Employees are reminded they must not smoke in areas other than the designated smoking areas. We also appreciate any efforts you can make to direct passengers to the designated smoking areas.

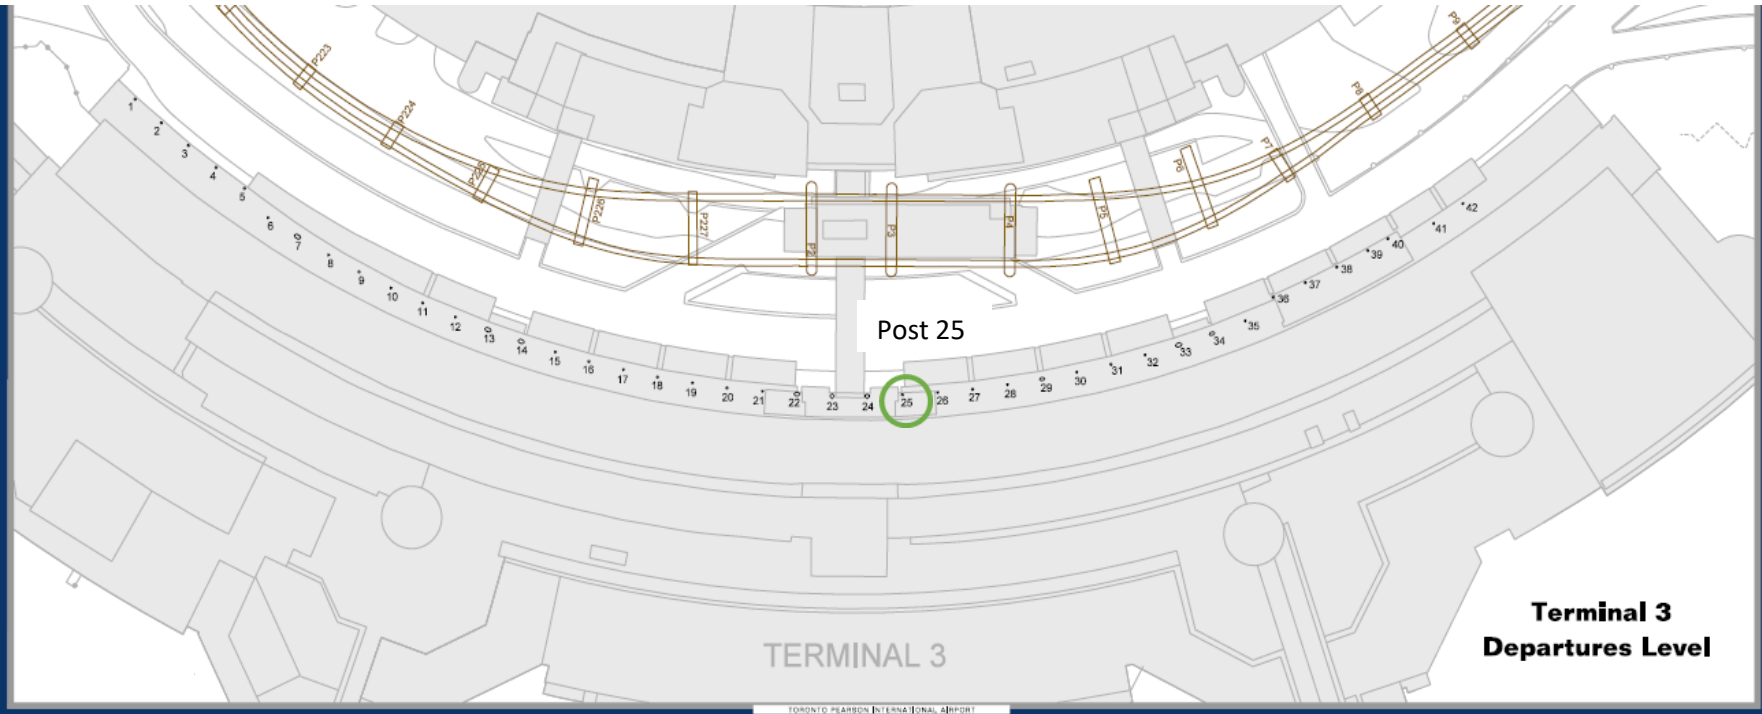

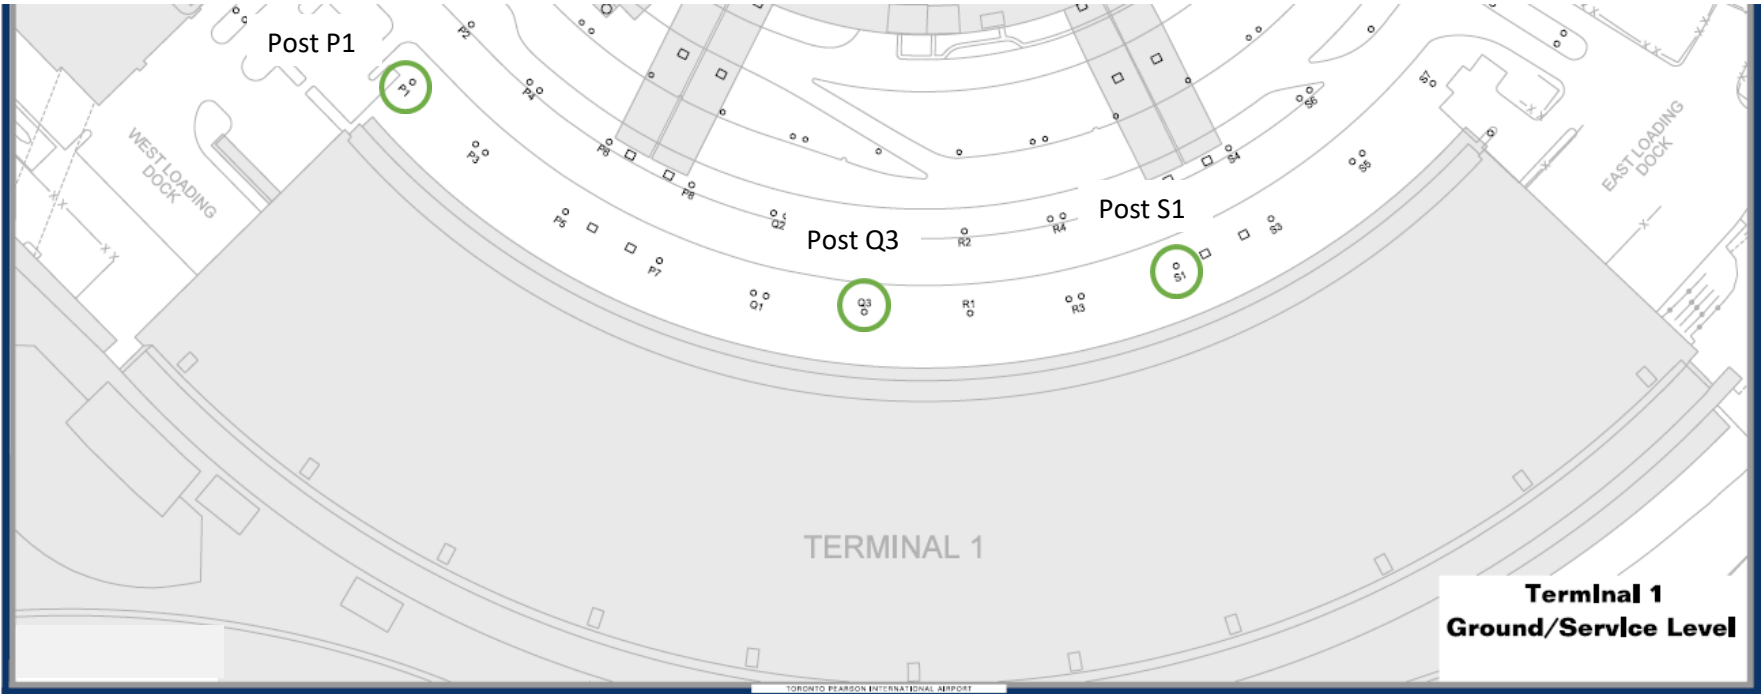

Maps detailing the designated curbside smoking locations at Terminal 1 and Terminal 3 have been included.
