The GTAA Airport Development and Construction department capital program continues to improve the reliability of People Moving Devices (PMDs) throughout Toronto Pearson International Airport.

The Terminal 3 escalators H16/17, which go down to the CBSA Customs hall from the Pier C side of the AT level, will be removed from service on November 1, 2018 until April 30, 2018. During this period passengers will be directed to escalators G14 and G15 to access the CBSA hall (see drawing below). Because of the hoarding required on the AT level and the Arrivals level, the wheelchair drop off location will be relocated to an area in proximity to elevator G19. Although Elevator H22 will be available the elevator lobby in the CBSA area will not be able to accommodate the staging of wheelchairs.
