**Date:** 2018-11-13

Now that construction of the washrooms has been completed in the Terminal 3 CBSA Primary Inspection Line (PIL) area on Arrivals, the Primary Security Line (PSL) will return to its permanent position on the east side on November 13 at 10:00. Door H121A is the Non-Passenger Screening (NPS) location between 08:00 and 00:00 daily. During this time employees will need to be biometrically validated by an Access Control guard and presented to CATSA for screening if they wish to enter the restricted area within this door. There will be no backflow of passengers into this area for the use of the washrooms as the west side of the PIL has facilities that are accessible. During non-NPS hours only those agencies with exemptions from screening may access after being biometrically validated by the Access Control guard. Egress from the restricted area into the CBSA PIL area is allowed 24 hours a day.
