

Advisory # 2018-A-066

Subject: 12857 – East Apron Phase 1

From: Airport Planning & Technical Services and Aviation Services

Contact: Jonathan Kwan, jonathan.kwan@gtaa.com , 416-776-5489 and Marjorie Thompson, marjorie.thompson@gtaa.com , 416-776-2794

Date: 2018-11-28

Please be advised construction has commenced on completing the fuel line installation for Phase 1 of the East Apron.

This advisory outlines the anticipated impact on the existing vehicle corridor (head of stand road) caused by a fuel pit installation.

PSL Fence Displacement and Adjustment to Vehicle Corridor

November 29, 2018 – January 18, 2019

- Existing PSL fence will be displaced to enable construction activities to remain groundside
- Vehicle corridor will be converted from 2-lane road to a 1-lane road.
- Signage will be provided on either end of displaced PSL indicating vehicles shall yield to oncoming traffic.
- Refer to sketch illustrating proposed PSL fence displacement and traffic signage
