

Advisory # **2018-A-070**

**Subject: Facility Control Measures and Evacuation Plan**

**From:** Operational Continuity and Emergency Management Programs

**Contact:** Emergency Management, [emergency.management@gtaa.com](mailto:emergency.management@gtaa.com)

**Date:** 2018-12-04

Operational Continuity and Emergency Management Programs launched a new Facility Control Measures and Evacuation Plan. The purpose of this plan is to provide an overview of Facility Control Measures and Evacuation methods to be used in response to various emergencies at all Greater Toronto Airports Authority (GTAA) owned and operated buildings. The plan talks about new terminology and Peel Region's colour coded system that may be used in the event of imminent danger at Toronto Pearson.

In an Emergency, When You Hear It Do It!

Along with the plan, an online training course has been created for all stakeholders and can be found on the Toronto Pearson web site

<https://www.gtaa.org/pearsonawareness/index.html>

In accordance with the Fire Code, this training is mandatory for all Toronto Pearson employees and must be completed annually.

Should you have any questions please feel free to contact Operational Continuity and Emergency Management programs at [emergency.management@gtaa.com](mailto:emergency.management@gtaa.com)
