

Advisory # 2019-A-014

Subject: Changes to Employee Egress from Terminal 1 International

From: Customer and Terminal Services

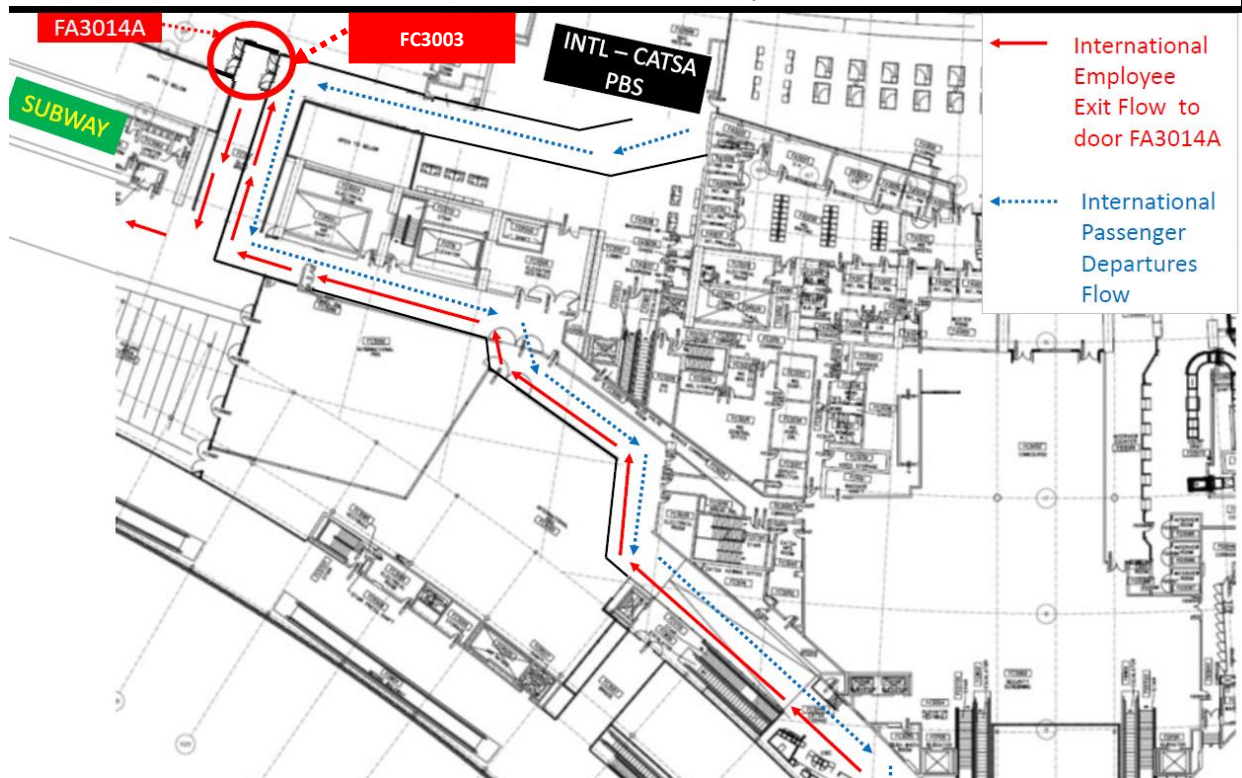

Contact: Joe Daiello, joey.daiello@gtaa.com

Date: 2019-02-25

Effective Tuesday, February 26, 2019, beginning at 0001L, we will be adding a new egress point for employees working in the Terminal 1 International sector post security.

New Exit – Door FC3003 – Level 3:

Employees exiting the Terminal 1 International sector on Level 3 will follow the route outlined in red below to exit the Restricted Area to the public area of the Terminal:

Employees will exit the International hammerhead by proceeding from level 2 to level 3; follow the International Departures corridor (west side of Pier F) and back flow along Pier F against the departing International passenger flow to door FC3003 which is located prior to the International Pre-board Screening area as highlighted above.
