

Advisory # **2019-A-025**

Subject: 193 Extension Gate Lounge Re-numbering

From: Customer and Terminal Services

Contact: Paul Schenk, paul.schenk@gtaa.com, 416-776-3471

Date: 2019-06-10

As we continue to develop and expand the 193 extension to meet the demands in capacity and the needs of our stakeholders and passengers, we are adding 5 new gates to the east side of the facility. In advance of the operational go-live of these additional gates there is a requirement to re-number the gate lounges on the inside of the facility.

On the night of June 10, after transborder operations, we will begin the process of changing over the signage and the IT systems to match the re-numbering plan. This work will take place over a period of 3 nights concluding on the morning of Thursday, June 13. From an airline and passenger perspective the change should be relatively seamless. There will be **no change** to the airside gate numbering as part of this work.

The plan for re-numbering includes three gates on the first night, followed by 4 gates on each of the following two nights. The changeover is noted below.

Please pass this information along to all your operational teams as needed.

Airside Number	Current Lounge #	New Lounge #	Date of Change
246	F84/F85	F84	Overnight- June 10 into 11
248	F86	F85	Overnight- June 10 into 11
250	F87	F86	Overnight- June 10 into 11
252	F88	F87	overnight- June 11 into 12
254	F89	F88	overnight- June 11 into 12
256	F90	F89	overnight- June 11 into 12
258	F91	F90	overnight- June 11 into 12
260	F93	F91	overnight- June 12 into 13
266	F94	F92	overnight- June 12 into 13
268	F95	F93	overnight- June 12 into 13
270/ 272	F96/F97	F94/F97	overnight- June 12 into 13
