

Advisory # [2019-A-040]

Subject: Relocation of the fleet vehicle entrance at T1

From: Airport Development and Technical Services

Contact: Alberto Valencia, Alberto.Valencia@GTAA.com, 416-776-3394

Date: 11-September-2019

The current entrance for fleet vehicles in T1 is being relocated. Once relocated, access will be through the west loading dock.

This is being done in order to provide additional transit parking on the inner curb at the service level in T1. The construction will start on September 16, 2019 and is anticipated to be complete on the November 08, 2019.

All fleet vehicle parking will be relocated adjacent to the HBS building except for the two electric vehicles (EVs). A key card will be provided in the vehicles to allow access into the HBS parking area. Vehicles being returned can be parked in any empty space.
