

Advisory #2019-A-056

**Subject: New Temporary delivery loading area on Head of Stand at T3 between Gate C29 and C30**

**From:** Aviation Services

**Contact:** Marjorie Thompson, Marjorie.Thompson@gtaa.com, 416-776-2794

**Date:** November 01,2019

As we continue with construction at Terminal 3 on head of stand road between gates C36 and C37 to support a new baggage facility, access to the freight elevator and waste compactor from the east apron of Pier C will be blocked starting Nov 4, 3019.

To allow for continued access to the freight elevator and waste compactor, a temporary delivery offloading area will be established at the west end of the closed tunnel between gates C29 and C30.

This advisory outlines the general impact to the surrounding area for this phase of the project. Please note that the start date is weather dependent.
