

Advisory # 2019-A-064

Subject: Closing of FC3241A and FC3025

From: Customer and Terminal Services

Contact: Paul Schenk, paul.schenk@gtaa.com 416-776-3471

Date: 2019-12-10

As part of ongoing redevelopment in Terminal One there is a requirement to remove door FC3241A and restrict movement through FC3025. In doing so, a route that is currently used as an employee bypass between the international sector and the transborder sector will effectively be closed. Door FC3025 will become an emergency egress door only and will be signed and secured as such. Employees with a need and a right to access the transborder sector will be able to continue using FD3247B as they do today. These changes are scheduled to take effect on December 16, 2019.
