

Advisory # **2020-A-040**

Subject: Employee Bypass T1 at L3 International/Transborder

From: Customer and Terminal Services

Contact: Theodora Philos, theodora.philos@gtaa.com, 416-776-3984

Date: June 16, 2020

As part of the ongoing redevelopment of Terminal 1, Employee bypass door FD3080E located on the AT level between the International departures flow and ITPC, will be taken out of service on June 22, 2020. During construction, the route for employees to access/egress the ITPC area will be through doors FD3051A and FD3051B as depicted below. Future use of door FD3080E will be for surrey operations, as well as employee access/egress.

The map and pictures below illustrate the new route. Signage will be in place to assist employees as required.
