

Advisory # **2020-A-074**

Subject: Aircraft Holding to maintain physical distancing

From: Airport Operations

Contact: Tammy Smith, Tammy.Smith@gtaa.com, 416-776-1107

Date: 2020-11-10

Effective immediately, arriving aircraft may be instructed to hold off-gate by the Apron Management Unit (AMU) to manage flows into the T1 and T3 CBSA Primary Inspection Halls. This process has been implemented to help maintain physical distancing requirements as recommended by the Public Health Agency of Canada. Additionally, it allows the aircraft to maintain on-board air filtration while holding for the safety of the passengers and crew.

If you have any questions, please do not hesitate to contact Tammy Smith at 416-776-1107.
