Advisory **# 2021-A-003**

Subject COVID-19 Arrival Testing

From: Airport Operations

Contact: Glen Henderson, glen.henderson@gtaa.com, 416-776-9958

Date: 2021-01-31

In order to facilitate the recent announcement made by the Provincial Government regarding mandatory Covid-19 testing for International arriving passengers, the following process changes will be implemented on **February 1st, 2021**:

1) Effective 1100 local, both the Terminal 1 ITT and Terminal 3 Recheck facilities will be closed until further notice.

2) Effective 1200 (noon), all terminating International and Transborder arriving passengers, as well as connecting passengers remaining in Ontario will be directed to the Terminal 1 or Terminal 3 Arrivals Testing locations where passengers will undergo a mandatory COVID test. Passengers connecting outside of Ontario will continue to follow established connection processes until the Federal mandate comes into effect, which is expected mid-February.

3) To ensure that connecting passengers make their onward flights, Air Carriers are requested to prioritize the offload of connecting passengers, specifically those connecting within Ontario.

4) In the event the Arrivals Testing Facilities reach capacity, established metering / holding protocols will be utilized to ensure public safety.

5) Communications regarding pre-registration will be provided shortly to expedite processing and reduce the potential for arrivals holding/metering.
