

Advisory # **2021-A-011**

Subject: CUTE Training Room Closure

From: Airport Operations

Contact: Jarrett McDonald, Associate Director, Airline Programs and Terminal Development, Jarrett.mcdonald@gtaa.com, 647-382-2125

Date of Issue: March 24, 2021

Effective Date: March 31, 2021

Background and Impact:

As part of the redevelopment of T3, the GTAA is building an interim connections facility to provide a sterile International/Transborder to Domestic (ITD) connections flow similar to the process currently in place in T1. The facility will be located on the arrivals transfer level of Hammerhead B (see diagram below) with an expected completion date of March 2022.

In order to construct these new facilities, the office complex in this location will be demolished and will no longer be available effective March 31, 2021. This includes the GTAA CUTE Training Room (Room number AH318) which has been used for training purposes as well as to perform check-in system functionality by airlines and ground handlers. Please note that it is not presently feasible for the GTAA to relocate this facility and the amenity will no longer be available after March 31, 2021. However, on a case-by-case basis, accommodations can be considered on check-in counters.

Questions or concerns can be directed to Jarrett McDonald, Associate Director, Airline Programs and Terminal Development at 647-382-2125 or Jarrett.mcdonald@gtaa.com.
