With passenger travel resuming, our terminal parking garages are becoming busier and nearing capacity.

To maintain space for our passengers in the terminal garages, airport staff are being relocated to the Value Park Garage from the terminal parking garages starting October 1, 2021. This transition is expected to be completed by October 15, 2021. To facilitate this change, the Terminal Link will revert to two-train service as of October 1, 2021. Please give yourself extra time when taking the Terminal Link.

Parking keycards will be automatically updated to allow employees to access the Value Park Garage. If you have questions or concerns, please contact Carlo Cordi, Manager, Operations, Groundside Transportation Services (416-776-5975).
