

Advisory # 2022 – A - 018

Subject: Terminal 3 Parking Garage Rehabilitation – Main Entrance Reduction of Vehicle Lane Access

From: Airport Development and Technical Services - Engineering, Architecture & Construction

Contact: Massimo Circelli, massimo.circelli@gtaa.com, 416-346-3654

Date: 2022-05-20

As part of the Terminal 3 Parking Garage Rehabilitation project, the expansion joints of the main entrance to garage are being replaced. This will result in a reduction of available access lanes at this entrance point during construction. The work will be phased as follows:

PG1 Closed / PG2 Open

Monday May 30th 06:00L to Monday June 6th 06:00L

PG2 Closed / PG1 Open

Monday June 6th 06:00L to Monday June 13th 06:00L

Access to the garage will also be available via the PG6 entrance on Departures level. Signage will be placed on site to direct the public accordingly.
