

Advisory # **2022-A-038**

Terminal 3 – HammerHead B SPIL – Apron & Terminal work

From: Airport Operations; Terminal Development

Contact: Wesley Vahrmeyer, wesley.vahrmeyer@gtaa.com, 647-327-5470

Date: 2022-08-29

To facilitate construction for the HammerHead B Satellite Primary Inspection Line (T3 HHB SPIL) which will facilitate International to Domestic (ITD) and International to International (ITI) passengers to make connections while remaining within the secure areas of the Terminal.

To support the facilitation of this construction the following areas will be impacted:

Airside Impact

- **August 31st, 2022– October 12th, 2022** - Stand B19 to be downgauged, still able to accept up to code C aircraft
- **October 13th, 2022– August 17th, 2023** - Stand B19 full closure
- **August 18th, 2023 – November 20th, 2023** - Stand B19 to be downgauged, still able to accept up to code C aircraft

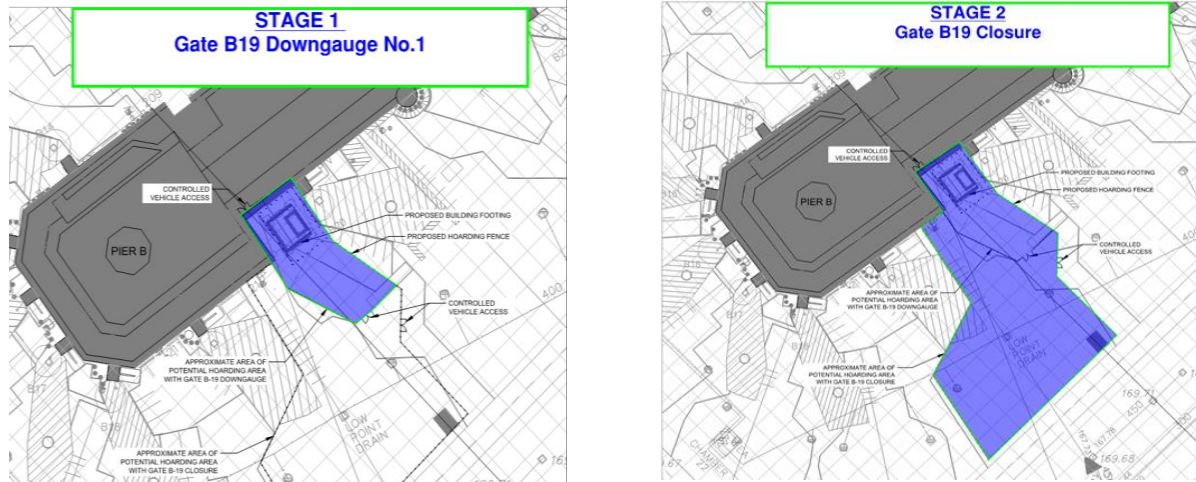

While work is occurring at B19 GSE parking and staging in the area will not be available.

Terminal Impact

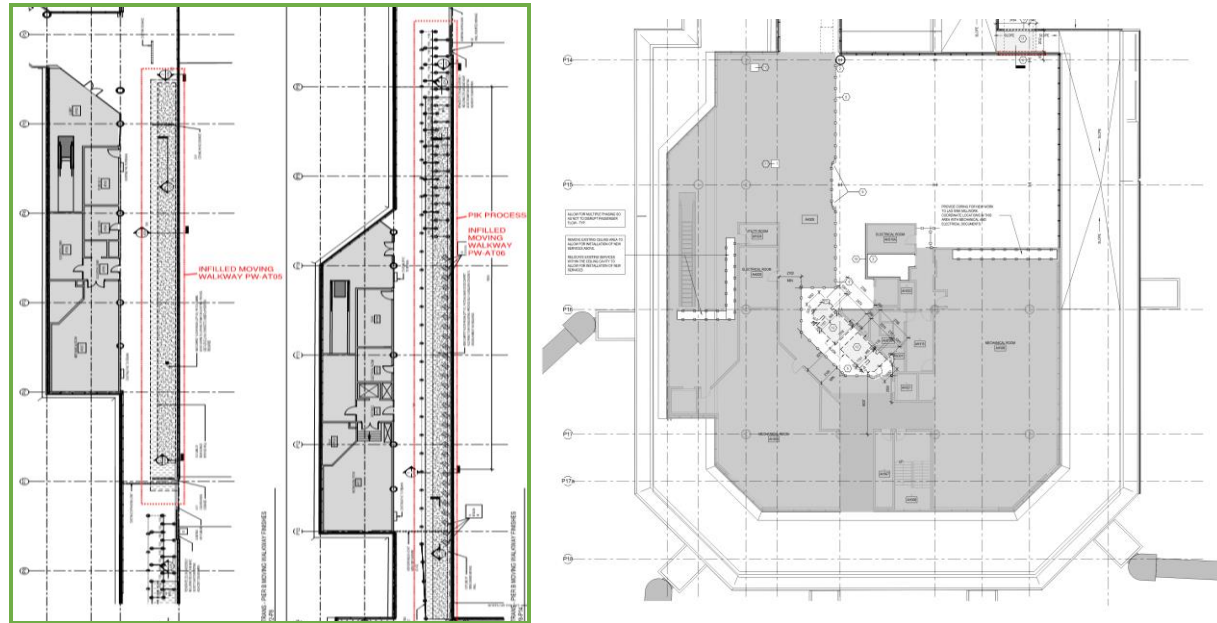

The majority of the construction will take place behind hoarding walls along Pier B and in the HHB areas on the AT level. Passenger flow along the AT level will not be impacted by this construction. Ceiling work will be required in the lounge areas of B17, B18 and B19 however this work will be conducted overnight to not impact use of the lounge for operations.

Please see diagrams below for reference:

Airside Impact

Terminal Impact

Pier B – Hoarding to be installed around moving walks **HHB** – Hoarding in place since 2021

If you have any questions or concerns regarding this work, please contact Wesley Vahrmeyer using the above contact information.
