Reference Advisory #2023-A-001

Access into and through the US Transborder/Preclearance Departure Area is strictly prohibited to personnel who are authorized to access and or scheduled to work (need and right) within the area. Only those personnel with a need and right to be in the Preclearance areas while performing their work-related-related duties, as assigned by their employer, shall enter at any time. Employees Restricted Area Identification Cards must also be visible at all times in all secure areas. Failure to abide by these access restrictions will result in the suspension of airport access privileges of the offending person. In addition, only passengers that have been processed and confirmed for a US departing flight are allowed within the Transborder areas. Airport personnel encountering passengers attempting to access or egress the Transborder area shall not allow the transition between sectors, and in all cases where this is the request, please contact Security Operations at 416-776-7381. There is zero tolerance for security violations at Toronto Pearson. Increased vigilance by all airport personnel to recognize, educate and report these situations is necessary to support a strong security culture.
