

Advisory # **2023-A-045**

Subject: Terminal 1 - Washroom Revitalization Phase 1

From: Airport Operations; Operations Delivery

Contact: Wesley Vahrmeyer, wesley.vahrmeyer@gtaa.com, 647-327-5470

Date: 2023-12-07

Terminal 1 washrooms will be revitalized over the next three years to improve employee and passenger experience. Under the washroom project aged infrastructure will be replaced and smart technology added to improve passenger experience and make maintenance and cleaning more efficient. To facilitate this work, washrooms will be closed in a phased approach to ensure that no more than one washroom bank is being renovated in each sector at a time. As washrooms in Phase 1 are completed during Q2 of 2024, washrooms that are part of Phase 2 will begin being closed.

Terminal Impact

Phase 1: December 11, 2023 to Q2, 2024

The majority of the construction will take place behind hoarding walls at each washroom bank. Work that creates loud noise or strong smells will be conducted at off-peak times. The exterior of the hoarding will have wayfinding to assist with navigation to the closest open washroom and water bottle filling dispenser.

Washrooms included in Phase 1: EC2012/EC2013, ED2030/ED2031, FAS005/FAS006, FG2107/FG2111, FE2013/FE2007.

Please see the diagrams below for reference.
