

Supersedes: 2020-D-001

Directive # 2020-D-002

Subject: Mandatory Face Covering Requirements at Non-Passenger Screening points

From: Governance, Corporate Safety and Security

Contact: Dwayne MacIntosh, 416.776.3811, dwayne.macintosh@gtaa.com

Date of Issue: 2020-04-17

Effective Date: 2020-04-20

Expected Action:

A person who is submitting to screening at a non-passenger screening and non-passenger screening vehicle checkpoint under the *Canadian Aviation Security Regulations, 2012*, must wear a face mask when directed to do so by a CATSA screening officer. Refusal to comply could result in access to the restricted area being denied.

Background and Impact:

Effective Monday, April 20, 2020 @ 1200 local time, the Minister of Transport has issued mandatory requirements regarding the use of face masks at non-passenger screening-terminal (NPS-t) and non-passenger screening-vehicle (NPS-v) checkpoints.

This order shall require all Toronto Pearson employees to confirm they are equipped with a suitable face mask prior to the access control officer verification point. Employees will not be allowed to enter the screening checkpoint if they do not meet this requirement.

Note: Employers are responsible to supply their employees with face masks.

Face mask means any non-medical mask or face covering that is made of at least two layers of tightly woven material such as cotton or linen, is large enough to completely and comfortably cover a person's nose and mouth without gaping and can be secured to a person's head with ties or ear loops.
