

Notice # 2026-N-001

Subject: Reduced and Low Visibility Plan of Operations

From: Aviation Regulatory Operations Department

Contact: Lisa Cooke, lisa.cooke@gtaa.com 416-706-9391

Date: 2026-03-11

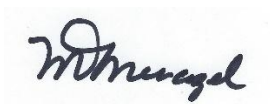

The Reduced and Low Visibility Plan of Operations V 2.0 is now published.

We encourage everyone to review these updates and integrate their contents into internal training, processes, and procedures where relevant.

This update contains administrative changes and minor procedural updates. There are no changes to the infrastructure, or possible reduce and low visibility runway configurations.

This revision supersedes all previous versions, ensuring we are equipped with the most current guidelines. Internal stakeholders can access the updated document through the link provided below:
