

SHIFT BRIEFING |

Drones: Learn the rules before you fly

Without proper approvals, training and preparation, flying drones at airports present a serious and unwanted hazard. To safely operate a drone:

- Ensure you have a valid drone license
- Register your drone
- No flying within 3NM from airports
- Understand privacy laws

Are you interested in flying a drone? Review the following information about drone safety at the airport:

- [Transport Canada](#): Obtaining your license
- [Toronto Pearson](#): Permission to operate at the airport
- [Nav Canada](#): Approval to operate in airspace
