   @TorontoPearson

Toronto Pearson is working towards a bold vision: to be the best airport in the world. In 2019, it was the sixth most connected airport in the world, facilitating 50.5 million passengers and over 450,000 aircraft movements, directly employing 49,000 people and enabling \$42 billion of Ontario's GDP.

Toronto Pearson's Noise Management Program works to strike a balance in operating a growing airport and regional economic engine with the impact on surrounding communities. Through our Noise Management Action Plan, we're working to manage noise impacts. The Noise Management Forums are a series of briefings, tables and working groups that will help us work smarter with our communities and collaborate better as an industry to balance the benefits that an international airport brings to Southern Ontario with the associated noise impacts.

At the Pearson Public Meeting – one of our Noise Forums – you'll have the opportunity to learn more about airport operations, what we're currently doing to manage noise impacts, and to provide your feedback to industry partners. Thank you for joining us.

#### RECAP OF MEETING ON September 24, 2020

Where we are in the conversation...

- Airport Situational Update
