

GTAA ENVIRONMENTAL POLICY

Toronto Pearson International Airport

The Greater Toronto Airports Authority (GTAA) strives to be a leader in environmental management through the continual improvement of its environmental management system (EMS). The GTAA monitors progress, employs best management practices, and utilizes innovative and cost-effective technologies.

The GTAA's Environmental Strategy focuses on:

- Mitigating our environmental impact through identification and control of significant environmental aspects that include:
 - *climate change*
 - *healthy environment (air quality, water quality, contaminated sites, ecology/wildlife and noise management)*
 - *resources (waste)*
- Commitment to reducing the carbon footprint of the GTAA, by allocating funds on an annual basis for investment in projects for the direct reduction and/or offset of energy consumption and GHG emissions.
- Being a good neighbor through:
 - *transparency in external reporting*
 - *continuous consultation*
 - *engagement with neighboring communities on environmental management related practices and initiatives*
- Expanding partnerships through collaboration with:
 - *airlines,*
 - *regulatory agencies*
 - *academia*
 - *non-governmental agencies*
 - *businesses*
 - *other stakeholders to help ensure that the region continues to grow responsibly*
- Demonstrating ongoing environmental leadership and maintaining our status as an industry leader in sustainability, and fulfilling all compliance obligations.

Howard Eng
President and Chief Executive Officer
