

Assurance of Professional Field Review & Compliance for Finished Construction

A separate letter is required for each discipline that submitted a GRCC included in the project FAP application submission.
Submission of these letters to CCPO should only be after a final review of the finished construction is carried out by each discipline and found to be satisfactorily completed for its final and intended use. This assurance letter is for:

Architectural Mechanical Electrical Structural Fire Protection

Other (Specify) _____

FAP Number: _____

Attention: Construction Compliance & Permits Office
P.O. Box 6031, 3111 Convair Drive
Toronto AMF, ON L5P 1B2

RE: _____
(Project Title)

(Project Location/Address)

Dear Sir:

I hereby give Assurance that

- a) I have fulfilled my obligation for field review as outlined in the previously submitted General Review Commitment Certificate.
- b) Not including construction safety aspects, those components of the project initiated by me in the General Review Commitment Certificate substantially comply in all material respects with:
 - i. All applicable codes and standards as outlined in Section 4.1 of the GTAA Airport Construction Code, and
 - ii. The plans and supporting documents prepared by the Registered Professional or design Consultant for the Project.
- c) See attached

Details of any outstanding work under my discipline, which is also signed and forms part of this assurance letter.
